

COMPANY

Since 1986, when it was established in Castelfidardo, Italy, our Company has been dealing in the precious metals foils professional market with id. Code AN 101* and licensed by Banca d'Italia to distribute silver grains and foils under authorization n. 5004577.

We currently supply leading firms with our semi-finished products and, recently, with exact scale model reproductions of world famous architectonic works as well as precious metal gift and fancy goods.

We have been entrusted, lately, by important Arab Royal Families with the 1/1000 or 1/2000 scale reproductions of Mecca and Medina in silver, gold or other precious metals.

We have also been commissioned the execution of bas-relief portraits of leading personalities, a highly appreciated unique and prestige gift.

The models are put in a precious wooden box with the brand of the client on the cover. they are used as gifts for important friends, clients and also foreign delegations.

We are also able to make monuments as high as 7 metres, in bronze with particular coats that make them unbreakable. For example for Round Abouts.

So far, our works have been highly estimated among our specialized customers who appreciate our seriousness, professionalism and relentless efforts to ensure complete satisfaction in meeting any and every particular requirement we are only too proud to be able to fill.
